##### GENERAL PROVISION, THIS CHAPTER

SEC. 101. ASSISTANCE TO AGRICULTURAL PRODUCERS THAT HAVE USED WATER FOR IRRIGATION FROM RIO GRANDE RIVER. (a) IN GENERAL.—The Secretary of Agriculture shall use \$10,000,000 of the funds of the Commodity Credit Corporation to make a grant to the State of Texas, acting through the Texas Department of Agriculture, to provide assistance to agricultural producers in the State of Texas with farm-

ing operations along the Rio Grande River that have suffered economic losses during the 2001 crop year due to the failure of Mexico to deliver water to the United States in accordance with the Treaty Relating to the Utilization of Waters of the Colorado and Tijuana Rivers and of the Rio Grande, and Supplementary Protocol signed November 14, 1944, signed at Washington on February 3, 1944 (59 Stat. 1219; TS 944).

(b) AMOUNT.—The amount of assistance provided to individual agricultural producers under this section shall be proportional to the amount of actual losses described in subsection (a) that were incurred by the producers.

##### (c) EMERGENCY REQUIREMENT.—

(1) IN GENERAL.—The entire amount necessary to carry out this section shall be available only to the extent that an official budget request for the entire amount, that includes designation of the entire amount of the request as an emergency requirement under the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 900 et seq.), is transmitted by the President to Congress.

(2) DESIGNATION.—The entire amount necessary to carry out this section is designated by Congress as an emergency requirement pursuant to section 251(b)(2)(A) of that Act (2 U.S.C. 901(b)(2)(A)).

SEC. 102. Not later than 14 days after the date of enactment of this Act, the Secretary of Agriculture shall carry out the transfer of funds under section 2507(a) of the Food Security and Rural Investment Act of 2002 (Public Law 107-171).

SEC. 103. SENSE OF THE SENATE ON COMPENSATION TO PRODUCERS OF POULTRY AFFECTED BY AVIAN INFLUENZA. It is the Sense of the Senate that the Secretary of Agriculture act expeditiously to provide compensation through the Commodity Credit Corporation to producers of poultry that have been affected by outbreaks of avian influenza in Virginia, West Virginia, and other States which have resulted in the destruction of poultry flocks in order to contain this disease.

SEC. 104. (a) FINDINGS.—(1) Of the 40 million people living with HIV/AIDS, nearly 2.7 million are children under 15, and 11.8 million are young people aged 15–24, more than 540,000 children were infected in mother-to-child transmission in 2000, and a baby born to an HIV-positive mother has a 25 to 35 percent chance of becoming infected.

(2) Targeted provision of dairy products for HIV/AIDS mitigation provides an economical and efficient means to strengthen nutrition, ward off infectious diseases and extend the lives of HIV-positive individuals.

(3) Good nutrition including dairy products is critical to programs that provide and enhance anti-retroviral drugs to prevent mother-to-child transmission of HIV/AIDS, and nutrition experts recommend the use of dairy products with anti-retroviral drugs to combat mother-to-child transmission.

(4) In the diets of young children, growing adolescents and pregnant women, milk has been proven to provide a concentration of critical nutritional elements that promote growth and robust health, and the National Institutes of Health (NIH) recommends that dairy products be used to boost the nutrition of HIV-positive young children.

(5) It is imperative that attempts to improve the availability of dairy products to the HIV/AIDS afflicted do not undermine the security and stability of the indigenous dairy production and processing sector.

(6) The United States has more than 1 billion pounds (450,000 metric tons) of surplus non-fat dry milk in storage that has been acquired at an average cost of over 90 cents per pound for a total cost approaching \$1,000,000,000, and storage costs are \$1,500,000 per month and growing.

(7) This huge amount of milk overhangs the United States and world markets and deteriorates rapidly, going out of condition in about 3
